PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience in web-based system development, database management, data organization, Excel reporting, debugging, testing, and technical support. Experienced in developing system features, integrating databases, organizing and analyzing data, creating reports and visual summaries, troubleshooting issues, and implementing system revisions based on requirements and feedback. A detail-oriented problem solver and fast learner seeking to contribute to a professional IT environment.

INTERNSHIP EXPERIENCE

OJT Trainee

Feb 2026 – May 2026

Research Management Services – Research Publication Management

- Developed, debugged, and tested a web-based Research Publication Management System, including database integration and workflow implementation.
- Implemented and improved system features based on requirements, supervisor feedback, and testing results.
- Identified, investigated, and resolved application issues through iterative testing and live system demonstrations.
- Assisted in organizing research data and transforming raw data into structured Excel reports and visual summaries.
- Installed and configured three office systems on staff devices and provided basic technical support to ensure proper functionality.

EDUCATION

Bachelor of Science in Information Technology | Major in Business Analytics

2022 – 2026

Batangas State University – Alangilan Campus | Cum Laude

PROJECTS

1st Safety Driving School Portal — Capstone Project

Full-Stack Developer

- Developed a full-stack web-based management portal supporting student registration, enrollment, scheduling, payment verification, progress tracking, announcements, and feedback.
- Developed administrative and instructor functionalities for managing assignments, schedules, attendance, student progress, vehicle records, and performance reports.
- Implemented database-driven features and role-based access control for different system users.
- Integrated system data with visualizations and Groq AI to generate data-based insights.

Pediatric Management System — Capstone Project

Backend Developer

- Served as backend developer for a full-stack web app focused on streamlining pediatric patient records, appointment scheduling, and medical history tracking for healthcare providers.

AWARDS & RECOGNITION

2nd Place – Business Intelligence Dashboard Challenge

May 2025

- Competed in data visualization and analytics; developed an interactive BI dashboard using Power BI.

TECHNICAL SKILLS

- Web Development: HTML5, CSS, JavaScript, PHP, Laravel, React.js, Node.js, Vite, Tailwind CSS, Bootstrap, REST API Integration, Responsive Web Design,
- Data Analysis: Microsoft Excel & Power BI (Pivot Tables, Charts & Graphs, Basic Formulas, Data Visualization)
- Database Management: PostgreSQL, MySQL, SQL, Firebase
- Development Tools: Git, GitHub, Visual Studio Code, XAMPP, Composer, Laravel Artisan, Postman
- Microsoft Office Suite: Word, PowerPoint, Excel
- Documentation & Reporting: Technical Documentation, Report Writing, Data Presentation
- System Development: Feature development, debugging, testing
- Hardware & Networking: OS Installation, RAM Upgrade/Replacement, LAN Setup, Router Configuration (WiFi/SSID setup), Basic Network Troubleshooting, Printer/Peripheral Setup

CERTIFICATIONS & MEMBERSHIPS

- JPCS Membership (AY 2025–2026) — Junior Philippine Computer Society, BatStateU Alangilan / 2025
- Information Session: PNPKI for Everyone — DICT CALABARZON Regional Office / April 2026
- eGOVPh Information Session — DICT CALABARZON Regional Office / Feb 2026
- Digital Frontiers 2026 (3-Part Series): AI Governance & Smart Cities, IT Audit & Risk, Design Thinking — Batangas State University CICS / March 2026
- Conducting Data Analysis — TESDA Online Program / July 2026
- Developing Designs for User Experience — TESDA Online Program / July 2026
- Microsoft Cybersecurity Course: Security, Compliance, and Identity Fundamentals — TESDA Online Program / July 2026
